PRESSURE-TESTER

MBW's Pressure tester is a consistent, compact and lightweight gas manifold used in the field by utility technicians. It has a universal gauge fitting for both digital and analog. This is an ideal tool for all service technicians on the job for meter and regulator replacement programs. This is a quick easy way to ensure all plumbing functions downstream are working properly.

The tester's three main functions include:

- Determining the gas meter is properly functioning and readings are accurate.
- Directly testing the regulator's utilization and lock up pressure to ensure the settings are correct.
- Determine if any downstream leaks are present past the meter.

	PRESSURE TESTER
LxWxH	.88" x 5.76" x 5.25" (22 x 146 x 133 mm)
Weight	3.8 lbs. (1.72 kg)
Max Inlet Pressure	10 PSIG
Hose Length	36" (914 mm)

	MODERATE FIRE FLOW TABLE
4 oz.	48 CFH
2 PSIG	45 CFH
5 PSIG	272 CFH

	SLOW FIRE FLOW TABLE
4 oz.	1 CFH
2 PSIG	7 CFH
5 PSIG	18 CFH

	LOCK UP PRESSURE TOLERANCES
4 oz.	5.2 oz.
5-10 PSIG	<2 PSI above set point

() Metric Measurements. Specifications subject to change without notice.
